To record a PowerPoint (PPT) using Camtasia

Step 1- open PowerPoint

Go to the Add-Ins tab

Click on the Microphone (if you are adding your voice to the PPT)

Click on the <u>camera</u> (if you want your picture to be in the ppt)

Then click <u>record</u>

Please see the following picture for details

Go through the recording- slide by slide, talking normally

If you had to pause

Click (F9)

To continue

Click (F9) again

To end the recording click (F10)

If you can still see the options bar (as in the above picture) you can click on (Pause) or (Stop) to end recording.

If not simply press (F9) or (F10) as per the notes above

Once you finished recording, you have to save before you can start editing

Choose the Format to be saved in

In the Drop down menu (where it is highlighted to say- Web) click the down arrow and you will get

The following menu

Choose Custom Production Settings and then
